## OBJECTIVE

Passionate and driven Bachelor of Information Technology student at B.N Bandodkar College of Science, excited to kickstart my journey as a full stack web developer. Eager to leverage my skills and expand my expertise in a professional setting. Seeking opportunities to learn and grow while contributing to a dynamic and collaborative team environment.

## SKILLS

### Languages & Technologies:

- (Proficient) React JS, Express JS, Node JS, Git, MongoDB
- (Familiar) Python, Java, Firebase, Redux, MYSQL

## INTERNSHIPS

### Web Developer, Intern

#### Prodigy Infotech

Jan 2024 – Nov 2024

- Served as an intern at Prodigy Infotech, focusing on web development tasks.
- Played an integral role in crafting visually captivating and responsive website designs.
- Contributed actively to the development and execution of engaging web solutions.
- [Certificate](#)

### Web Developer, Intern

#### System Tron

Jan 2022 – Feb 2024

- As an intern at System Tron, I offer expertise in web development to support remote operations. Proficient in HTML, CSS, JavaScript, and React.js.
- I am enthusiastic about utilizing my skills to craft dynamic and inventive online solutions.
- **Leveraged Knowledge** in React.js, Firebase, Netlify.
- [Certificate](#)

## SOFTWARE PROJECTS

### E-commerce Web Application

- Developed a comprehensive web application for our client, Jai Ambe Saree, to efficiently manage their Saree Shop. The application incorporates various functionalities and securely stores data in MongoDB.
  - Employed ReactJS for the entire frontend development, ensuring a visually appealing and user-friendly interface. Utilized Nodejs to create robust APIs, facilitating seamless communication between the frontend and backend.
  - Designed and implemented an intuitive Admin Dashboard, empowering administrators with the ability to seamlessly add products, customize orders, and access detailed insights into products and customer interactions.
  - Implemented Redux for effective state management, enhancing the overall performance and responsiveness of the application.
  - **Utilized:** - React.js, Node.js, Redux, MongoDB
- [Images of Project](#)

### Netflix Clone

- Implemented Youtube API for playing trailers realtime on the web application and Netlify for deployment.
- **Utilized:** React JS, Tmdb API, Youtube API, Netlify
